**NOTICES****AVIS****PRIVATE MEMBERS' NOTICES OF  
MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

14. Mr Silipo - Resolution - That in the opinion of this House, since there is a significant and growing sense of cynicism and alienation toward the political process of Ontario and it is to the benefit of all to restore the relevance of government in people's lives; and

since the present system does little to address the growing cynicism among the electorate towards the political process; and

since the fairest and most democratic system of election is one which results in the composition of the Legislature reflecting as closely as possible the preferences of the electorate; and

since the present "first past the post" system of electing members to the Legislative Assembly of Ontario does not mirror the voters' preferences adequately, usually resulting in majority governments being formed by a party receiving a minority of voter support; and

since the present legislative system grants little constructive role to the opposition parties although they usually represent a majority of voters' preferences; and

since the Mike Harris government is committed to introducing legislation to change the electoral system by reducing the number of MPPs in the Legislative Assembly and this will provide an opportunity to review the entire electoral system to make it more democratic;

therefore, as one major part of reforming the electoral system of Ontario,

- a) members of the Legislative Assembly of Ontario should be elected by a system of proportional representation which would better reflect the wishes of the voters and promote better representation of women and the diversity of Ontario in the Legislature; and
- b) this system should be applied on a regional basis to maintain the appropriate balances between urban and rural Ontario; and
- c) the Legislative Assembly Committee should examine the various possible models of proportional representation which could be applied to Ontario; and
- d) the Legislative Assembly Committee should report back to the Legislative Assembly with one or more models of proportional representation for Ontario which could be incorporated by the government into the legislative changes required to reform the electoral system. April 9, 1996.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
- b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;
- c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;

- d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment. April 16, 1996.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and
- since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,
- therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

**NOTICES****AVIS****PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

14. Mr Silipo - Resolution - That in the opinion of this House, since there is a significant and growing sense of cynicism and alienation toward the political process of Ontario and it is to the benefit of all to restore the relevance of government in people's lives; and

since the present system does little to address the growing cynicism among the electorate towards the political process; and

since the fairest and most democratic system of election is one which results in the composition of the Legislature reflecting as closely as possible the preferences of the electorate; and

since the present "first past the post" system of electing members to the Legislative Assembly of Ontario does not mirror the voters' preferences adequately, usually resulting in majority governments being formed by a party receiving a minority of voter support; and

since the present legislative system grants little constructive role to the opposition parties although they usually represent a majority of voters' preferences; and

since the Mike Harris government is committed to introducing legislation to change the electoral system by reducing the number of MPPs in the Legislative Assembly and this will provide an opportunity to review the entire electoral system to make it more democratic;

therefore, as one major part of reforming the electoral system of Ontario,

- a) members of the Legislative Assembly of Ontario should be elected by a system of proportional representation which would better reflect the wishes of the voters and promote better representation of women and the diversity of Ontario in the Legislature; and
- b) this system should be applied on a regional basis to maintain the appropriate balances between urban and rural Ontario; and
- c) the Legislative Assembly Committee should examine the various possible models of proportional representation which could be applied to Ontario; and
- d) the Legislative Assembly Committee should report back to the Legislative Assembly with one or more models of proportional representation for Ontario which could be incorporated by the government into the legislative changes required to reform the electoral system. April 9, 1996.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
- b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;
- c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;

- d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment. April 16, 1996.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and
- since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,
- therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

**NOTICES****PRIVATE MEMBERS' NOTICES OF MOTION**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

14. Debated April 25, 1996.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

**AVIS****AVIS DE MOTIONS DES DÉPUTÉS**

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
  - b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;
  - c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;
  - d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and

since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,

therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

**NOTICES****AVIS****PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
- b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;

- c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;
  - d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment. April 16, 1996.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and
- since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,
- therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

**NOTICES****AVIS****PRIVATE MEMBERS' NOTICES OF  
MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
- b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;

- c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;
  - d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment. April 16, 1996.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and
- since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system, therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.
18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and
- since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province; therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:
- a) enact an Ontarians with Disabilities Act within its current term of office; and
  - b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and
- since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and
- since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and
- since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and
- since this government continues to attack the most vulnerable in our society;
- therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.

Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and

since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and

since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and

since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and

since this government continues to attack the most vulnerable in our society;

therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario.

**Ballot Item Number 30 - To be debated May 16, 1996.**

Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and

since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province;

therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:

- a) enact an Ontarians with Disabilities Act within its current term of office; and
  - b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation.

**NOTICES****AVIS****PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

15. Mr Colle - Resolution - That in the opinion of this House, since the roads in this province constitute a \$100 billion asset; and that the Ministry of Transportation is responsible for the construction and maintenance of the provincial highway system which consists of about 22,000 kilometres of roadway; and

since the 1995 Annual Report the Provincial Auditor has concluded that 60% of highways are currently considered to be in poor or substandard condition; and that if immediate actions are not taken to repair highways the condition of the infrastructure will continue to deteriorate to the point that a massive and costly reconstruction effort will become necessary; and

since the average cost of rehabilitation is estimated at \$80,000 per kilometre lane but if not implemented immediately the reconstruction cost per kilometre lane escalates to \$250,000 per kilometre lane; and that poorly maintained roads jeopardize the safety of motorists and increase the number of accidents resulting in higher repair and insurance costs; and

since representatives for the Ontario Road Builders' Association who appeared before the Finance Committee earlier this year told committee members that since this government came into power no money has been spent on the roads and highways in the province thus increasing the deterioration of roads; and that provincial cuts to the road maintenance and repair budget mean increased costs for future road reconstruction; and

since the Provincial Government is transferring thousands of kilometres of provincial roads to municipalities which in addition have had their provincial operating grants drastically cut; and that a comprehensive long-term government investment strategy in road maintenance and repair will maintain and encourage economic growth and commerce in communities across Ontario and can readily be undertaken by a highly trained and highly skilled local workforce;

therefore, the Government of Ontario should immediately establish a Road Maintenance and Reconstruction Fund whereby the government guarantees that a fixed portion of the gas tax along with other government revenues be designated to go directly toward the Road Maintenance and Reconstruction Fund for road maintenance, repair and reconstruction in order to systematically eradicate the existing substandard condition of 60% of provincial roads. April 16, 1996.

16. Mr Clement - Resolution - That in the opinion of this House, since Ontarians are entitled to high levels of service from the public sector; and

since Ontarians sent a clear message in the June election that the status quo is not acceptable and called for a government committed to driving substantive reforms in the delivery of public services; and

since the Progressive Conservative government has already taken steps to respond to this message by reviewing all public expenditures; and

since it is important that this process does not neglect the needs of Ontarians and should include the establishment of guiding principles within the public service that will ensure that it is responsive to the public's expectations;

therefore, in order to provide Ontarians with a better, more accountable and more responsive public service, the Chair of the Management Board should investigate the establishment of a mechanism to ensure that the following principles and standards are adopted by the government of Ontario;

- a) measurable standards need to be established whereby the public as consumers of public services can assess how services are delivered on a regular basis;
- b) information needs to be readily available to the public that will allow them to understand what services cost, who is in charge and how they can benefit from the service;

- c) the public must be consulted on a regular basis to ensure that the service is still achieving its desired objectives and continues to be a service which the public sector should be providing;
  - d) the public's needs must be paramount in determining how to deliver a service;
  - e) the public must be treated equally and with dignity and respect;
  - f) the public must have access to a system of redress whereby the government must accept the responsibility for the delivery of services in an appropriate manner; and
  - g) the taxpayer must be protected by ensuring that government services are delivered in an efficient and economic manner within the context of the existing fiscal environment. April 16, 1996.
17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and
- since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system, therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.
18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and
- since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province; therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:
- a) enact an Ontarians with Disabilities Act within its current term of office; and
  - b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and
- since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and
- since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and
- since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and
- since this government continues to attack the most vulnerable in our society;
- therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.

**NOTICES****AVIS****GOVERNMENT NOTICES OF MOTION****AVIS DE MOTIONS DU GOUVERNEMENT**

6. Mr Eves - Resolution - That this House approves in general the Budgetary Policy of the Government. May 2, 1996.
- 

**PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.
15. Debated May 2, 1996.
16. Debated May 2, 1996.

17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and

since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,

therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and

since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province;

therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:

- a) enact an Ontarians with Disabilities Act within its current term of office; and
- b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and

since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and

since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and

since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and

since this government continues to attack the most vulnerable in our society;

therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.

**NOTICES****GOVERNMENT NOTICES OF MOTION****AVIS****AVIS DE MOTIONS DU GOUVERNEMENT**

6. Mr Eves - Resolution - That this House approves in general the Budgetary Policy of the Government. May 2, 1996.
- 

**PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and

since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,

therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and

since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province;

therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:

- a) enact an Ontarians with Disabilities Act within its current term of office; and
- b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and

since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and

since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and

since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and

since this government continues to attack the most vulnerable in our society;

therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.

**PRIVATE MEMBERS' NOTICES OF MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2. Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6. Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

17. Mr Stewart - Resolution - That in the opinion of this House, since the expression of spirituality in public schools is currently limited only to the reading of prayers and other spiritual texts, and that the multi-faith character of Canadian society has never implied that particular expressions of, as well as education about, diverse spiritual traditions are to be suppressed, but openly celebrated and respected by students and all Canadians as part of the intrinsic fabric of our country, and

since spiritual expression and reflection is an important part of the overall development of values and the communication of the varied role of spirituality in our lives, and that open spiritual expression is practiced within the publicly-funded separate school system,

therefore, the Ministry of Education and Training should recognize the important role of spirituality and spiritual expression among students of multi-faith traditions in Ontario's public school system by allowing local Public Boards across Ontario the right to determine for themselves how such spiritual expressions should be included in the daily activities of their schools. April 23, 1996.

18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and

since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province;

therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:

- a) enact an Ontarians with Disabilities Act within its current term of office; and
- b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and

since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and

since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and

since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and

since this government continues to attack the most vulnerable in our society;

therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.

**PRIVATE MEMBERS' NOTICES OF  
MOTION****AVIS DE MOTIONS DES DÉPUTÉS**

2.      Mr Tilson - Resolution - Whereas the Liberal Government of Canada has passed Bill C-68, an Act Respecting Firearms and Other Weapons,

and whereas Ontario welcomes real gun control, and supports those portions of Bill C-68 which provide tougher penalties for the criminal use of firearms, new offenses related to firearm smuggling and trafficking, and a ban on para-military weapons,

and whereas existing laws requiring the registration of handguns have done little to reduce the number of crimes committed with hand guns or lower the volume of handguns smuggled into Canada,

And whereas the national gun registration provisions of Bill C-68 will result in a massive misallocation of the limited resources available to law enforcement agencies, with no practical effect on the traffic in illegal firearms, or the use of guns by violent criminals,

And whereas the gun registration provisions of Bill C-68 will take police officers off the street and involve them in bureaucracy rather than fighting crime, and will make the task of real gun control more difficult and dangerous for police officers,

Now be it resolved that the Province of Ontario urge the House of Commons of the Government of Canada to sever from Bill C-68 those provisions for a compulsory registration of all firearms and implement the rest of the bill forthwith, and further, that the House of Commons introduce legislation aimed at real gun control that will include the creation of a national firearm enforcement unit, improve the enforcement of anti-smuggling measures by custom officials at border crossing points, enhance access to the Canadian Police Information Centre (CPIC) computers for Customs officials, and electronically link Canadian police services with the Bureau of Alcohol, Tobacco and Firearms in the United States. October 25, 1995.

6.      Mr Wood (Cochrane North) - Resolution - That in the opinion of this House, the Government of Ontario should recognize the uniqueness of northern Ontario, and in that recognition restore the funding cuts made to programs and services in the north so that the citizens of the north are provided with equitable services and programs similar to those provided to other areas of the province. November 21, 1995.

17. Debated May 9, 1996.
18. Mrs Boyd - Resolution - That in the opinion of this House, since persons with disabilities in Ontario face systemic barriers in access to employment, services, goods, facilities and accommodation; and

since all Ontarians will benefit from the removal of these barriers, thereby enabling these persons to enjoy equal opportunity and full participation in the life of the province;

therefore, the Government of Ontario should keep its promise as set out in the letter from Michael D. Harris to the Ontarians with Disabilities Act Committee dated May 24, 1995 to:

- a) enact an Ontarians with Disabilities Act within its current term of office; and
- b) work together with members of the Ontarians with Disabilities Act Committee, amongst others, in the development of such legislation. April 30, 1996.

19. Mr Curling - Resolution - That in the opinion of this House, since the Minister of Municipal Affairs and Housing has caused considerable confusion by publicly telling landlords and builders that he will introduce legislation that will end rent control, but on the other hand, tells tenants they will be protected without any explanation; and

since this government has cancelled over 390 non-profit housing projects that would have provided needed and decent shelter to lower income Ontarians, but has made known no plan to make up for this short-fall in affordable accommodation; and

since the Minister intends to drastically change six pieces of housing legislation, including rent control, that will wipe out tenant protection in Ontario; and

since rent control legislation was first introduced in 1975 and improved on by subsequent governments over the past 20 years; and

since this government continues to attack the most vulnerable in our society;

therefore, the Government of Ontario should stop its plans to gut rent control, and work with tenants to ensure that tenant protection and rent control be maintained in the province of Ontario. April 30, 1996.
